Chief Sanitary Officer Francis, who has OFFICIALS HOPEFUL.

They Believe a Peaceful Way Out Will Be Found.

Washington Aug. 12.-While the dicisio of the President net to go to Chicago do not signify that he contemplates calling Congress together in extra session, it incl. cates that the possibility of such action becoming necessary is realized. Heretofore, as grave as the Chinese situation has been anditions have not been such as to compel him to remain in Washington. At Can-ton he has been in constant communication telephone and was able to conduct pubic business from there as he would have

been at the White House.

The pressing necessity of his remaining in Washington has developed within the past day or two, since the decision that he could net go to Chicago was not reached earlier than yesterday, when he held a long and important conference with Secretary Root and Assistant Secretary Adee. With the possibility of it becoming necessary to call an extra session of Congress, the necessity of the President's remaining in Washing-

ton would be apparent.

The Chinese affairs have reached that crisis where within twenty-four hours conditions may take a turn one way or the other. So little is known of the disposition of the Chinese Government that there is no means of judging whether the reply sent to Li Hung Chang will be received in a compliant spirit or one of defiance, and the

worst must be prepared for. A stage has been reached where events nove rapidly at the seat of military operations, and if there is not a speedy collapse of Chinese resistance the fact that war actually exists cannot long be ignored.

No Temporizing. The United States Government has taken the lead in replying to China that there will be no temporizing negotiations and there is every reason to believe the Powers will be united in this same policy.

The answer of the United States was quickly fellowed to-day by similar action on the part of the Germans. The Berlin Foreign Office delivered to the Chinese Minister an answer refusing to enter into ne-gotiations on the ground that there was no evidence that Li Hung Chang's credentials gave him sufficient power to act, and that of nothing short of complete authority from the responsible rulers of China, the Emperor and Empress Dowager, could be regarded as sufficient

The Japanese officials expressed their full conviction that Japan would take similar action if, indeed, such action had not already been taken

The course of France and Great Britain has not been made known here, but there is thought to be no doubt that these Governments will decline to treat with China at this time. Each Government, however, is icting entirely on its own responsibility, and there will be no prearrangement as to the For that reason the German answer differs from the American, although the end A FEW HOURS

Text of the Reply. The correspondence containing Li Hung Chang's appeals and this Government's re-ply was made public to-day, as follows: (hinese correspondence, August 29-22, 190-Handed to Mr. Adee by Mr. Wu, August 29, 190-1911.8 a.m.;

All the troops now at sea, amounting to about 4,000, together with those under orders for service in the Far East, which have not sailed, amounting to about 3,000 more, will be sent to Manila. These troops will sail on the same route, and, upon touching at Nagasaki, will go on to Manila unless there are developments in China not now expected, which would make their presence

that country necessary. Secretary Root said to-day that no more roops were being sent to China because they were not needed. With the arrival at Taku of the Hancock, and the troops she carried, General Chaffee will have 5,000 available men, which is deemed sufficient for all present purposes. A dispatch was received from General Chaffee to-day, dated Pekin, August 18, which was not in response to the request sent him a few days ago to report the conditions and requirements. General Chaffee did not report further fighting in Pekin, and for that reason the Washington officials feel assured that hostile demonstrations in the Chinese capital have ceased. The dispatch related largely to transportation conditions, and stated that the railroad be-tween Taku and Pekin could not be used at the present time, as portions of it had been destroyed by the Chinese, General Chaffee will co-operate with the other commanders in China in reconstructing the roud for the use of the allied forces. USED ICE TONGS AND A KNIFE.

Opened One Victim's Cheek From Ear to Chin and Cut Another's Throat—All Escaped Fatal Injury.

John Walter, a farmer, became crazed from drink yesterday evening and terrorized the town of Millstadt, Ill., assaulting two men with a pair of ice tongs and wounding another with a knife. The juries he inflicted are painful and in each instance will leave their mark for life.

Walter was overpowered by the City Marshal, after he had defied the efforts of two of his victims to disarm him. He was frenzied, foaming at the mouth and shouting curses at the top of his voice.

The Marshal strapped him and locked him in a cell in the city jail, where he continued his mad ravings. Walter first attacked Jacob Lippert, driver

of a beer wagon, at Besse's saloon, striking him savagely with a pair of ice tongs, the sharp points penetrating the scalp to the skull at each blow. After felling Lippert, the sight of the clood which flowed from the driver's head

#### SHIRT WAISTS AT A DANCE.

Male Guests Looked Cool, Comfortable and Attractive.

Varied colored and diverse-patterned shirt waists were the order of the evening with the men at a dance given at the old Pastime Club Hall by Miss M. Hardy last night. The rule was that no male wearing a coat would be allowed upon the floor, and the rule was a popular one because of the heat and an apparent desire to display novelties in the shirt-waist line.

In the early part of the evening there was some timidity on the part of the knights of the shirt waist, and they evinced a desire to wear coats. This soon wore off, however, and after the third or fourth dance the ballroom presented an attractive scene of moving color. The designs in the waists were almost as varied as the shades of color. There were plain fronts, box pleats, yokes and ruffles.

Though the night was warm, the dancers did not have the heated look which is generally observable at summer dances. The shirt waists enabled the male dancers to benefit by every passing breeze, which Varied colored and diverse-patterned shirt The shirt waists enabled the male dancers to benefit by every passing breeze, which never would have penetrated the thickness of a dress coat and starched shirt bosom.
